

Downtown Phoenix Overview

Downtown Phoenix is where history meets innovation, showcasing Phoenix's historic town site, its recent revitalization and continued resurgence. Between 2005 to the present, the broader 1.7 square mile downtown area has been infused with more than \$7.3 billion in investment in the areas of transportation, office, residential, education and research, technology, arts, culture, sports restaurants/night life and hospitality.

RETAIL

Currently, Downtown has over 800,000 SF of retail space with new construction continually adding more. The retail market of Downtown Phoenix contains a diverse mix of local boutiques, restaurants, bars, lounges and retail stores. The building including Fry's Grocery Store at First St. and Washington is now complete and the renovation of the iconic Arizona Center brings an additional retail center to the downtown core. Roosevelt Row continues to attract high-end, local boutiques.

OFFICE

Downtown Phoenix is the historical financial and civic center of Arizona and is quickly becoming the epicenter for innovation and company growth. There are more than 9 million square feet of private office space in the Downtown core. Downtown office buildings offer tenants the unique opportunity of placing signage atop the towers which is visible from the I-10 and I-17 freeways, the Sky Harbor Airport flight path and during major sporting events. Downtown also offers unique space in older structures and warehouse buildings. Demand for Downtown office space continues as employers look to take advantage of the light-rail system and provide their employees with an amenity-rich, walkable and collaborative working environment.

EDUCATION AND RESEARCH

Downtown has risen over the past 15 years into a strong center for innovation, biomedical collaboration and education. All three major, public Arizona universities maintain a Downtown campus with more construction planned.

Major Downtown Education/Research Building Development:

ASU opened its Downtown Phoenix Campus in 2006, heralding new energy and vitality into the Valley's urban heart. The following ASU colleges and schools are now located on the Downtown Phoenix campus: College of Health Solutions, College of Integrative Sciences and Arts, Edson College of Nursing and Health Innovation, Sandra Day O'Connor College of Law, Thunderbird School of Global Management, Walter Cronkite School of Journalism and Mass Communication, and the Watts College of Public Service and Community Solutions.

Recent growth continues with the 2018 relocation of the world-renowned ASU Thunderbird School of Global Management to downtown. ASU, in partnership with Wexford Science and Technology, will build an additional 1.5 million square feet of biomedical space over the next several years. The first 225,000 square feet, 850 PBC, recently completed construction at the corner of 5th Street and Garfield. Along side its completion, Connected Labs, a built-out and furnished flexible labs/office space has moved in. The 28 acre Phoenix Bioscience Core (PBC), devoted to biomedical research facilities and the University of Arizona College of Medicine in Phoenix, has grown to 1.6 million square feet. The College of Medicine opened a Phoenix Campus in 2007. The Health Sciences Education Building was completed in 2012 and joins the Arizona Biomedical Collaborative 1 (ABC1) and the nationally recognized International Genomics Consortium and Translational Genomics Research Institute (IGC/TGEN). Construction was completed on the University of Arizona Cancer Center at 7th Street & Fillmore in 2015. The 245,000 sq ft, 10-story Biosciences Partnership building opened in 2017.
